

Saxophone High And Low Ranges by Key

Fingering indications should be carried out for the remainder of the exercise unless otherwise indicated.

S indicates a side-key fingering, for instance the right-hand side key for Bb, or the chromatic fingering for C.

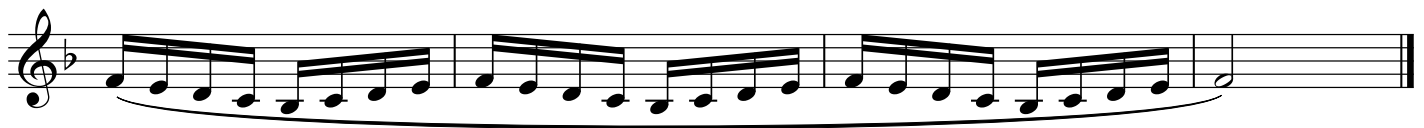

M indicates a center-finger fingering, for instance the non-chromatic C fingering.

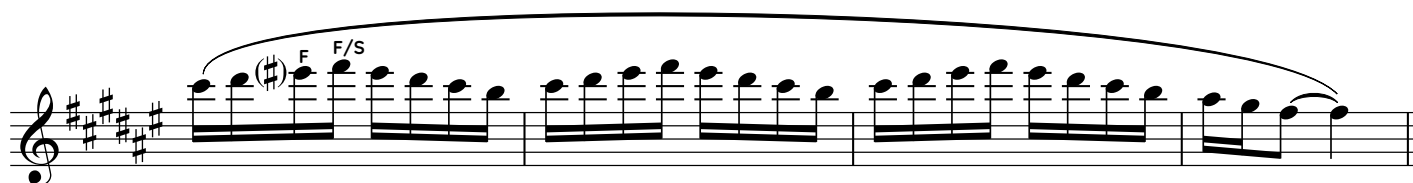

1-2/S indicates the 1st and 2nd finger on the left hand, with the bottom side key on the right hand.

F Indicates a "front" fingering for high F or E natural, using the key above the index finger B key.

F/S indicates "front" F plus the right hand Bb side key.

slide indicates sliding the pinky, using the rollers to assist the movement from one note to the next.

* Use the chromatic fingering for F#
